

## WATER-SOLUBLE SYNTHETIC HYDRAULIC OIL

**XL-7347** series are 100% synthetic base hydraulic fluids blended with water-dispersible performance additives resulting in high performance water-dispersible oils.

**XL-7347** series is formulated for positive and complete lubrication of spindles, needles, and other high-speed, high-temperature applications where water solubility, non-carbonization, and non-gumming of the lubricating fluid is imperative.

**XL-7347** series are formulated to standard "ISO VG" classifications, with the addition of "Multigrade".
